

VINAY [YOUR LAST NAME]

[8247625885] | [Email Address:- vinayvaranasi0711@gmail.com] | [LinkedIn Profile URL] | [GitHub Portfolio URL]

PROFESSIONAL PROFILE

Highly analytical **Engineering Student** at **Aurora Deemed University** with a robust technical foundation in **Full-Stack Development** and **Machine Learning**. Adept at designing scalable applications using **Java**, **Python**, and **C++**, with a proven track record of managing end-to-end project lifecycles. Recognized for bridging the gap between complex technical logic and user-centric design through effective **communication** and **cross-functional teamwork**.

TECHNICAL SKILLS

- **Programming:** Python, Java, C++, SQL
- **Web Technologies:** HTML5, CSS3, JavaScript (ES6+), Responsive Design
- **Data Science:** Machine Learning, Predictive Modeling, Data Pre-processing
- **Tools & Databases:** Git/GitHub, MySQL, PostgreSQL, VS Code
- **Soft Skills:** Collaborative Problem Solving, Technical Documentation, Public Speaking

PROJECTS & EXPERIENCE

Architect & Lead Developer | Management Tracking Application

- Engineered a dual-portal management system featuring dedicated **Admin** and **Client** interfaces.
- Developed a secure authentication module and integrated a **SQL** backend for real-time data persistence.
- Utilized **HTML/CSS/JS** to ensure a responsive and intuitive user experience across devices.

Project Lead | Collaborative Academic Presentations

- Coordinated a **5-member multidisciplinary team** to deliver a comprehensive 30+ slide digital project.
- Facilitated weekly syncs to ensure alignment on project goals, demonstrating strong **teamwork** and conflict-resolution skills.
- Translated complex technical requirements, such as **Floating Point Representation**, into digestible visual content.

Developer | Python Logic Systems

- Constructed an interactive Quiz Engine utilizing advanced **Python** data structures and error-handling protocols.
 - Applied **Machine Learning** principles to analyze datasets, improving predictive accuracy through rigorous data cleaning and processing.
-

EDUCATION

Bachelor of Technology (B.Tech) in [Your Branch, e.g., CSE] Aurora Deemed University | *[Expected Graduation Year]*

* **Relevant Coursework:** Data Structures & Algorithms, Database Management, Computer Architecture, Web Technologies.

ACHIEVEMENTS

- Successfully presented technical research on **Signed/Unsigned Integers** to faculty and peers.
- Developed a simulation for a **Bridge Rectifier Circuit**, analyzing ripple factor reduction.
